

Middle Maitland Restoration Fund

A designated fund to help restore the Middle Maitland River upstream of Listowel

Established

December 2018

Beneficiary

Maitland Valley
Conservation Authority

Tim MacDonald grew up in Listowel and has worked there since 1988. He's also a keen outdoorsman, so it seemed natural for him to volunteer with the Maitland Valley Conservation Authority (MVCA), which looks after the Maitland River system.

Through this work, Tim became aware of how nutrient runoff and storm erosion has led to a real decline in water quality in the river that runs through his boyhood town. Happily, he also learned the MVCA has a well-developed plan to restore the river to full life. What they didn't have was a stable source of funding to get the project up to full speed.

Tim has generously established a new fund to provide this capital, and would like nothing better than to have you join him in supporting it. His ultimate dream is to grow the fund to \$1M.

What a wonderful gesture. Tim, we can't thank you enough for your continuing generosity, your long years of service to the Foundation, and your ongoing commitment to our work.

You can support this fund, or any fund with the Community Foundation, at spccf.ca.

**For a full list of named funds held, please see page 16.*

“ If the Middle Maitland is to be restored, we need to start at the source. Planting trees, shrubs and native perennials along the river will support restoration of the entire system.”
